Emma Stone

The Disability Press

The Disability Press aims to provide an alternative outlet for work in the field of disability studies. The Disability Press draws inspiration from the work of all those countless disabled individuals and their allies who have, over the years, struggled to put this particular issue onto the political agenda. Its establishment is a testament to the growing recognition of 'disability' as an equal opportunities and human rights issue within the social sciences.

Funding for this third volume has been provided by the Disability Research Unit. The editors also wish to record their thanks to the School of Sociology and Social Policy at the University of Leeds for its continuing support.
